A NEW ERA OF MISSIONS AND EVANGELISM

We are calling 60,000 believers to The Send in Orlando, Florida, on February 23, 2019, for a tipping point gathering we believe could spark one of the greatest eras of missions and evangelism. The Send is a national campaign and collaborative stadium gathering seeking to activate every believer into a lifestyle of Christ-like action.

We see a great need in our nation and the nations of the earth for practical solutions in order to bring about real change. We believe the solution is every willing individual taking action. Our heartbeat is that out of this gathering thousands will volunteer to pray, serve, and adopt one of these "5 Mission Fields" to see the needs of others met with love:

- 1. Children Living as Orphans:** At The Send we are launching "1MILLIONHOME", a global initiative to get one million orphaned children into permanent families in one thousand days.
- 2. High Schools:** We want to see hundreds of high schools adopted and Jesus Clubs established that offer hope for students suffering with depression, anxiety, fear, etc.
- 3. Universities:** On average, less than 5% of university students in America participate in a Christian group or organization. We are believing for a fresh wave of evangelists on universities.
- 4. Neighborhoods:** 56% of Americans are very or somewhat willing to receive information about a faith community from a friend or neighbor. We are believing for every Christian to actively engage their neighbors with the gospel.
- 5. Nations:** 3.1 billion people in the world have never heard the gospel. We're believing for a new wave of missionaries that would sign up at The Send to join a missions sending organization.

Leading the day of The Send are Youth With A Mission, TheCall, Lifestyle Christianity, Christ For All Nations, Jesus Image, Circuit Riders, Dunamis Movement, and many others for 12 hours of worship, prayer, and activation from 10 AM - 10 PM in Camping World Stadium.
